MAIL SUPPLEMENT TO THE HONGKONG DAILY PRESS.

HONGKONG, THURSDAY, SEPTEMBER 25th, 1890.

SELECTION OF AN M.L.C. BY THE CHAMBER OF COMMERCE.

The Chamber of Commerce on Thursday exercised its right of electing a member of the Legislative Council, when the choice of the members fell on Mr. T. H. WATKINS, who, from his remarks, it is believed, seems to have taken the honour as intended for the Bank of which he is the local representative. In this he was under a total misapprehension. Of the twenty-seven gentlemen who voted for Mr. WATKINS, we venture to say not one did so out of any desire to do honour to the Chamber of Commerce, but to elect a man who, in his own person, merits the name of the new member. When Mr. JACKSON was elected some years ago the question whether it was desirable that the Chamber should be represented by a Bank Manager was canvassed before the meeting, and it is perhaps not too much to say that the majority of the members were of opinion that it was not. FORBIDDERS IN JAPAN AND TREATY REVISION.

The French mail from the North we have received full reports of the meeting of the foreign residents held at Yokohama to protest against the proposed Treaty revision. The meeting was held on the 22nd inst. and was attended by about 100 persons. The meeting was held on the 22nd inst. and was attended by about 100 persons. The meeting was held on the 22nd inst. and was attended by about 100 persons.

The Crown against highly liberal minded men. The Japanese call this a "dilly speech," and speak of Mr. Broom as one of the friends of the Settlement. Our contemporary says that nearly all the most civilized nations in the West are without both habeas corpus and trial by jury, and Japan also can very well afford to dispense with them. Perhaps Japan can, but that is no reason why the foreigners in Japan who enjoy these privileges should be equally willing to dispense with them. And Mr. Broom seems to have hit a nail on the head that we have often been astonished at. He has received more attention at the hands of the Press of Japan. When contemplated changes are under discussion it is always well to consider how they will work in particular cases. Now, there can be little doubt that if extrajurisdiction were removed in Japan and the Press laws of the country applied to foreign as well as native journals both the *Japan Gazette* and *Japan Herald* would be annihilated. The *Japan Herald* would be annihilated. The *Japan Herald* would be annihilated.

As to the land question, dealt with in the second resolution, the *Japan Mail* enters into an argument to show that the speaker by whom the resolution was proposed was wrong in his facts. On this we are not in a position to express an opinion, but the subject does not appear to be one of much practical importance. If the treaties are revised it may be safely assumed that the Western Powers will see that the property of foreigners in Japan is not to be interfered with. In England a man may be compelled to part with his land for public improvements, and by the same doctrine the foreign landowners in Japan might not unreasonably be expected to do so. Their land or to consent to a change of tenure, compensation being given where damage might very well have been omitted from the proceedings at the public meeting.

In the appointment of the committee on the subject of the proposed revision of the *Japan Mail* was placed on the list of the committee. The committee on the subject of the proposed revision of the *Japan Mail* was placed on the list of the committee. The committee on the subject of the proposed revision of the *Japan Mail* was placed on the list of the committee.

RUSSIA AND KOREA.

That Russia is covetous of Korea, or at least a part of the peninsula, no sensible person can doubt. The time when she will attempt to do so is a matter of speculation. It may be in a year, or not for twenty-five years, or even fifty years, but the blow will be struck as soon as the opportunity seems ripe. We may expect, however, to receive some previous notice of the event from the *Japan Mail*, which journal is known to be friendly to Russia. The *Japan Mail*, which journal is known to be friendly to Russia. The *Japan Mail*, which journal is known to be friendly to Russia.

IS THERE OVER-PRESSURE IN SCHOOLS?

We have received the following communication:—"It has been alleged that there is a 'systematic over-pressure' going on in the schools of the Colony and to such an extent that the health of the youth of the Colony is being injured. It is to be regretted that the health of the youth of the Colony is being injured. It is to be regretted that the health of the youth of the Colony is being injured.

Parents who may be unwilling to bring their complaints or wishes on the subject of over-pressure before the general public, might address Dr. ERIC, Inspector of Schools, privately. The allegation as to children being overworked in the Colony is not confined to schools, but includes out-door work, such as the employment of children in carrying building materials to the Peak.

THE REGULATION OF HAWKERS.

The question of the regulation of hawkers was before the Sanitary Board at its last meeting. The subject is one of considerable importance to the Colony, and it is to be hoped that the Board will be able to do something to improve the position of the hawkers. The subject is one of considerable importance to the Colony, and it is to be hoped that the Board will be able to do something to improve the position of the hawkers.

THE COLONY'S JUBILEE.

The year is gradually wearing away, and the period of the Colony's Jubilee is approaching. It is without any particular interest being displayed in the celebration of that important event. What is to be done on the 25th day of the month? It is to be hoped that the Colony will be able to do something to improve the position of the hawkers.
